RUSSIA IN DARK ABOUT HER SHIPS.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Aug. 17, 2:02 p.m.—[By Atlantic Cable.]—Public anxiety regarding the fate of the ships of the Russian fleet, which were reported to have been sunk in the Gulf of Finland, is still unrelieved. St. Petersburg continues to be entirely dependent upon foreign sources for news, the Russian authorities claiming to be quite as much in the dark as the public. The Admiralty neither confirms nor denies the report that a majority of the squadron returned to Port Arthur, although it does not fail to point out that only the most desperate situation after the war could have compelled the vessels to return for refuge to that port.

Nothing has been received from Russian sources regarding the report from Chefoo of a sortie of the Port Arthur ships today. The report may refer to the cruiser Bayan, and the gunboats and torpedo-boat destroyers left in the harbor and one or two of Admiral Witthoff's ships which were forced to limp back to the port after the fight of August 10.

The report of the sinking of the cruiser Rurik is accepted as true in official circles, and the public had been prepared for a definite announcement by the publication this afternoon of a report that she had been grievously damaged. The authorities out of consideration for the families of the officers and sailors, decided to withhold an official announcement until they have received an official report upon the return of the cruiser Rurik and Gromobol to Vladivostok, where the experts figure they should arrive by this time.

There is a rumor about tonight that the cruiser Diana and Pallada have reached Port Arthur, but the source of the report cannot be traced, and it receives little credence. The opinion is growing that the heavy losses sustained by the Port Arthur fleet may completely alter the plans regarding the Baltic squadron, a division of which is cruising in the gulf, ready to sail.

SITUATION IN MANCHURIA.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Aug. 16.—There are no developments in the situation in Manchuria, except the receipt of a report by the General Staff of the continuance of rains and reports of the general exodus of the Chinese inhabitants, who are fleeing northward from Liao Yang in anticipation of the coming military operations.

The Bourgeois Gazette prints a special dispatch reporting that the Japanese have retired from Hailcheng, Tashichao and Newchwang, but the statement is hardly considered credible.

The failure of the Chefoo reports to mention a continuance of the land fighting before Port Arthur is interpreted as evidence that the siege operations have thus far been without definite results.

It is deemed significant that throughout the bad news of the past week government spokesmen have not fallen a fraction of a point.

PROTEST TO THE POWERS.

RUSSIAN CIRCULAR OUT.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, Aug. 16.—[By Atlantic Cable.]—Ambassador Benckendorff, following out the instructions of Foreign Minister Lamsdorne, presented to Secretary Lansdowne an official protest from his government against the "flagrant violation of international law and neutrality" by the Japanese torpedo-boat destroyers at Chefoo. The protest is in the nature of a circular to all the powers, and recites the facts already published.

The St. Petersburg government asserts that the Japanese had no right to examine the Ryshchikoff to determine whether it was dismantled without first obtaining the permission of the Chinese admiral. So far as can be learned, Lord Lansdowne will merely acknowledge the receipt of the protest, reserving possible action on the part of Great Britain until the facts are ascertained.

There is reason to believe that the

inquiry commenced by the British authorities after the capture of the Ryshchikoff has been extended so as to take in the entire question of how the belligerents have observed the neutrality of China.

THE BRITISH NOTE.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, Aug. 16.—What is considered in government circles here to be not the least important feature of the latest British note delivered to Russia today is that dealing with the question of contraband. Great Britain reiterates the suggestion verbally made by Foreign Secretary Lansdowne to Count Benckendorff, the Russian ambassador to Great Britain, that the regulations issued by the Emperor defining the rights of the Russian warships toward the neutral vessels carrying alleged contraband should be modified, and particularly urges a revision of the list of articles declared contraband.

Because of her dependence on foreign countries for food, Great Britain made an especially strong objection to the inclusion of rice and foodstuffs generally. During the exchanges of communications, it has been the contention of Russia that her restrictions, such foodstuffs only become contraband if "intended for war purposes, or if sent at an enemy's cost or order."

Russia further points out that this is along lines laid down by the United States in the case of the steamer Mahona, at the time of the Boer war. Russia also represented to Great Britain the difficulty of knowing the real destination of a cargo because private firms in Japan are acting in behalf of the government.

The officials of the Foreign Office are reticent as to the length to which the government has gone in respect to the status of foodstuffs in the event of war, but it is said in a reliable quarter that the British note advances beyond the position laid down in the Mahona case, and that all food stuffs are now practically declared in the British view, to be not liable to seizure. If this statement proves correct, continental diplomats say, the declaration will meet with a cold reception on the continent.

Russia, it is stated, is not willing to aid Japan to obtain supplies for the subsistence of her army or navy; Germany is not disposed to recognize a principle which would mean such a great increase in the fighting power of the British Isles, and France holds the same view. The attitude of the United States in the past has been such, the officials here say, as to warrant the belief that Washington is prepared to go to considerable lengths in preventing the neutralization of the character of food stuffs. Regarding the Knight Commander case, the Foreign Office is informed that it will be presented to the Admiralty court at St. Petersburg for final appeal within a month. In the meantime the government is continuing to amicably discuss the question of the disposition of the incident.

Facts are being obtained in connection with the establishment by the Russian consul of a wireless telegraph plant at Chefoo, with which he alleged they communicate with Port Arthur.

In respect to the Ryshchikoff, the British officials say that much may be said in support of the Japanese contention. If the Ryshchikoff, as the Japanese claim, brought dispatches from Port Arthur, she clearly, in the British view, violated the neutrality of China, and thereby gave an excuse for the Japanese action.

Inquiries have been made by the British government in regard to the attitude of the United States in connection with Chinese neutrality. The American government will likewise obtain information regarding the policy Great Britain proposes to pursue. As both powers desire the preservation of the neutrality of the Chinese empire, the British officials expect that they will take independent action along identical lines on the part of Great Britain until the facts are ascertained.

There is reason to believe that the

correspondent of the Associated Press that the Germans had promised that the Chefoo incident would not be repeated at Tsing Tau.

The Japanese ships of this port consist of one cruiser and four destroyers. The Germans have informed the Japanese that they will not be entering the harbor at night without lights.

Every precaution is being taken to guard against a repetition of the Chefoo incident. German cruiser remains on guard outside the harbor. The others are inside.

The correspondent is unable to confirm the report that the protected cruiser Norik was sunk forty miles from Tsing Tau after the battle of August 10.

ADVANCE INTO KOREA.

[BY THE ASSOCIATED PRESS—A.M.]

SEOUL (Korea), Aug. 16.—No confirmation is obtainable of the report that the Japanese advance into Korea has begun.

FORMAL BRITISH PROTEST.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Aug. 16.—The formal British protest against the treatment of the neutral ships was delivered to the Russian government today. It follows the lines of Foreign Secretary Lansdowne's and Premier Lamsdorne's recent statements on the subject in Parliament.

PROTEST REACHES MIKADO.

[BY THE ASSOCIATED PRESS—A.M.]

PARIS, Aug. 16.—Russia's protest against the Japanese violation of Chinese neutrality at Chefoo has been transmitted to the Mikado's government by the French legation at Tokyo, acting purely as the intermediary of Russia, which has not made any representations to the Japanese government. The latter, as a neutral power, is not directly concerned, and has no reason for intervening in any manner at the present time. The impression in well-informed circles here is that the whole question is not urgent, and that it will be solved diplomatically.

The news that the Russian legation at Peking has protested to the Chinese government on account of the latter's permitting a breach of neutrality in its territory is officially confirmed.

JAPAN IS SATISFIED.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, Aug. 16.—Japan has notified Germany that she is entirely satisfied with the latter's course toward the Russian vessels at Tsing Tau, and Germany has advised Japan that she is quite willing to permit a Japanese vessel to enter Tsing Tau harbor, so that her commander may convince himself that the Russians are really disarmed, such ships to leave the harbor within 24 hours.

AT THE ADMIRALTY.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PETERSBURG, Aug. 16.—The Admiralty has little information today regarding the sea fight of August 10, or the whereabouts of five Russian battleships and three cruisers unaccounted for. Hope is still cherished, however, that they have escaped and have reached an appointed rendezvous.

Russia has been officially informed of the lowering of the flag over the battleship Carevitch and the two destroyers at Tsing Tau and acquiesces with Germany's position that the ships must remain there until the end of the war. While ordinary ship repairs may be allowed by Germany within the harbor, no renewal or repair of their armament or guns will be permitted. The reports that the United States and Great Britain have taken exception to Germany's decision in this matter are not regarded as serious.

Nothing definite has been decided regarding the dismantling of the Askold at Shanghai on account of the questionable ability of China to protect her neutrality. The Japanese are likely to spread such reports in order to mislead Gen. Kourapatkin. The Russian press praises the heroism of the late Admiral Witthoff's destruction of the Askold, and the Japanese are likely to spread such reports in order to mislead Gen. Kourapatkin.

The torpedo-boat destroyer Burni is the only Russian destroyer sunk off Wei-Hai-Wei.

Victory Alexieff has arrived at Vladivostok. His army orders believe the Japanese armies may move against Liao Yang any day, and does not believe the reports that three additional Japanese divisions have been defeated at Port Arthur. It is thought the Japanese are likely to spread such reports in order to mislead Gen. Kourapatkin.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

For Selling Opium.

Wong Poo, an old Chinaman, was arrested yesterday on a charge of selling opium to young boys.

Prayer Meeting.

At the Hollenbeck Home last night a special prayer meeting for the benefit of the "young people" was conducted by Mr. and Mrs. Francis Murphy and Mr. and Mrs. Samuel Farot.

Protest for Arroyo.

A mass meeting of the citizens of Lincoln Park, Garvanza, and Highland Park will be held on Thursday evening at 8 o'clock at the College of Fine Arts to protest against the building of a highway through the Arroyo.

Temperance Talk.

Francis Murphy, the temperance worker, will speak to the employees of Bishop & Co.'s cracker works today at 12 noon. Mr. Murphy will use as his subject "Be True to Thyself." The general public is invited.

Prize for Los Angeles.

The Benham Indian Trading Co. of Los Angeles took the \$100 prize given by the St. Louis Exposition company for the best costume worn on this occasion over \$200.

Many to Visit Exposition.

The September schedule for World's Fair excursions over the Santa Fe was posted yesterday and there are to be eleven of them during the month. Santa Fe officials report that September will be their heaviest excursion month.

Annual Moki Snake Dance.

The Moki snake dance, a dramatic pagan ceremony of the Pueblo Indians of Tusayan, Ariz., will take place on Oraibi next Tuesday. A number of people have been booked by the Santa Fe to attend this ceremony, leaving Los Angeles on Friday.

Dead Body Harmless.

The body of a man found the other day floating in a city reservoir, was not in one of the reservoirs furnishing water to the city for domestic purposes, but was discovered in an old irrigation reservoir, known as No. 5, water from which is used only in supplying the lake in Eastlake Park, and similar purposes.

Bryan Coming.

Santa Fe headquarters were notified yesterday that William Jennings Bryan, accompanied by his family, is on his way to the Grand Canyon in his private car. The date of his arrival is not definitely known, but the Bryan party has arranged to leave Bright Angel September 1. It is not probable that the free-silver man will come through to Los Angeles, but may go to San Francisco by way of Barstow.

Death in River.

Many persons of Los Angeles who knew Herbert P. Sibley, until about a year ago a resident of this city, will be grieved to hear of his death by drowning in the Wolf River, near Memphis, Tenn. The drowning occurred while Mr. Sibley was bathing in the river, the current sweeping him from his feet. He was employed while in Los Angeles by the Pacific Coast Bleach Company. A brother, Rev. Josiah Sibley, temporarily in Memphis, is pastor of the Azusa Presbyterian Church.

Coming After Grace.

H. T. Hemstead, a constable at Oakland, is on the way to this city after Grace McNaughton, arrested here Monday night. The condition of the young woman is much improved, and she will be able to travel. She will be accompanied north by her sister, Mrs. Ramsey. Miss McNaughton asserts she is not afraid to face a jury because she knows she is innocent. The case promises to be of note in Oakland police circles, it having been charged that the woman was protected by the police. The charge has been refuted by the officers.

No Venison! No Diamonds.

A venison dinner without any venison was the predicament in which a party of actor folk found itself yesterday at the Burbank. Thomas Clark, a Los Angeles man, shot a deer in Santa Monica Canyon Monday and yesterday he invited a number of stage people to a feast. It was arranged that the spread should be given on the stage of the Burbank yesterday afternoon just after a rehearsal. Among those invited were Oliver Morosco, Harry Mestayer, Miss Amelia Gardner, Frank MacVicar and Thomas Oberle. When the party sat down there was bread and butter and nappery but no venison. The succulent haunches had been put to cooking in an adjoining café and somebody had stolen them from the oven.

Byrne's Raffle.

General Passenger Agent John J. Byrne found fifty yesterday and expects to find 100 more within the next few days, each of whom will be touched for a few dollars. "Yes, I have gone into the raffle business," he said yesterday, "but as it is all for sweet charity, I don't think my friends will shy of me. Besides, Mr. Byrne has a fair show of getting 150 times the value of the little donation." Mrs. John Mansfield of Newington, a street has presented the management of the Barlow Sanatorium with a beautiful silk embroidered dressing gown which she bought in Japan on her last trip to the Orient. As it is a gown for men, and of the richest design and workmanship, Dr. Barlow and J. J. Byrne set the modest price of \$100 on it, and the raffle tickets are going with the same rapidity that Mr. Byrne sells excursion tickets to the Orient. The recently married men of the California Club bought as many as five chances each. Arrangements have been made to take the picture of the winner rode in the handsome garment.

Editing Songs.

Prof. Albert A. Stanley of the University of Michigan faculty, who has just completed a course of lectures at the Berkeley summer school of the University of California, is at the Westminister. Prof. Stanley is now cooperating with Arthur Farwell in the important work of editing the group of Indian and Mexican songs collected by photograph through the labors of Charles F. Lummis. Over four hundred of these rare songs have been snatched from oblivion and the great Archeological Institute of America will soon publish them in a special volume to the credit of the local Southwest Society. Prof. Stanley is deeply impressed by the work done here by the earnest devotees of this society, and as he is officially attending to the plans of the Southwest Society in relation to exploration and collection and preservation of the relics of ancient civilization in this region he is carried out without fail. The early establishment of an archeological museum here is now regarded as an assured fact.

BREVITIES.

\$1.50 is our special price for 10-year gold-filled reading eyeglasses and spectacles with best Al crystal lenses. Others will ask you from \$3 to \$5, and very often at that price the value is not equal to ours. Our ground-to-order glasses are correspondingly low in price and guaranteed to be the very highest in quality. Clark's Jewelry and

Hardaway H. Bein, aged 25, a native of Louisiana, and Mary F. White, aged 22, a native of California; both residents of Los Angeles.

William A. Robinson, aged 21, a native of New York, and Olive Wilcox, aged 18, a native of Colorado; both residents of Los Angeles.

Jacob B. Smith, aged 23, a native of Texas, and Mary Spencer, aged 23, a native of Texas; both residents of Los Angeles.

Seidlitz Powder Poetry.

A salesman of seidlitz powder was at the Louisville Hotel last night. John William Franklin Andrews is his name. In advertising his business Mr. J. W. Andrews recites the following unique piece of poetry:

"Here lies the body of Susan Lowder, who burst while drinking seidlitz powder—

She should have waited till it effervesced."

—[Louisville Herald.]

THE PUBLIC SERVICE OFFICIALS.

SUMMARY OF THE DAY.

The demand of C. N. Wright for pay for services was held up by the Civil Service Commission yesterday.

The first shaft on the outfall sewer has been sunk.

Two officers were suspended by the Police Commission.

The Board of Health instructed the Health Officer to inspect the Cudahy plant.

The Board of Supervisors has determined to furnish up the old cannon that has lain about the city for years and that have a romantic history that dates back to the old Spanish days.

An amusing suit came to trial yesterday wherein a single individual tried to sue a neighbor for keeping bees.

A. P. Rheinchild was arrested yesterday for resisting an officer and being cruel to a male.

H. T. Ortega was fined \$40 yesterday for stealing a watch.

PUBLIC ADVERTISING—NEW TODAY. (1) Notice inviting proposals for galvanizing under water pipe. This advertisement will be found on page 6, Part II.

AT THE CITY HALL.
**PAY OR NOT,
THE QUESTION.**

THE CIVIL SERVICE COMMISSION
HOLDS UP DEMAND.

Former Sanitary Inspector C. N. Wright Asks for Back Salary for Services He Claims He Rendered City—Wants Money for Time Between Discharge and Resignation.

The demand of C. N. Wright for back salary for services which he claims he rendered the city in the capacity of a sanitary inspector of the health department was not certified to by the Civil Service Commission at its meeting yesterday.

The case is a rather peculiar one and the commissioners were not willing to take action upon it until further investigation, and consequently held it up until the next meeting of the board.

It seems that on the 15th of last September on the statement of Health Officer Dr. Powers, that Wright was not attending to his duties, the Board of Health discharged him. Wright was a regular employee and was on the civil service list.

He, therefore, was not willing to give up his back salary without further investigation, and consequently held it up until the next meeting of the board.

It seems that on the 15th of last September on the statement of Health Officer Dr. Powers, that Wright was not attending to his duties, the Board of Health discharged him. Wright was a regular employee and was on the civil service list.

This he did and it was accepted with alacrity.

But "there's the rub."

Instead of dating his resignation September 15, the time of his dismissal, the resignation bore the date of its presentation, October 22.

Wright immediately set up a claim for "back pay" for the period between October 22 and the date of his resignation, which he maintains that he was never legally out of the employ of the city.

During all this intervening time he declares that, although he was ignored by Health Officer Dr. Powers, he continued to report regularly at the office and that he turned in reports every day from his district in which there was no other inspection.

At its meeting of August 2, the Board of Health agreed to recommend Wright be given back pay for this time, amounting to \$121.25.

Wright claims that he has also seen the Finance Committee of the Council and that it has agreed to approve the demand.

When Wright approached the Civil Service Commission yesterday afternoon he struck a snag.

At the time Wright was discharged by the Board of Health that fact was certified to by the board and the board of the commission do not show that he was ever employed thereafter.

The commission was asked to decline to do so unless the Board of Health will certify that Wright was in the employ of the city after he was discharged.

J. B. Lippincott, the recently appointed member of the commission with the commission for the first time.

Thomas was elected chairman and Dr. W. E. Edelman was chosen vice chairman.

The matter of fixing a maximum age limit for entry into the civil service was discussed, but no definite action was taken.

The protest of C. W. McManis against the appointment of Roy Farmer instead of himself as license clerk in the City Clerk's office was referred to a special committee consisting of Lippincott and McCutcheon.

OUTFALL SEWER.

Twenty-eight carloads of cement for the outfall sewer have been received within the past ten days and every warehouse is now full.

Stanbury & Powell, the contractors, have commenced work on three shafts in the third section. These are sunk 100 feet apart. When they are completed the work of drifting both ways to make connections will be begun. This section is 100 feet long and is all tunnel.

One of the shafts is already down to grade and the sinking of the others is progressing fairly well.

At this shaft the work of drifting has commenced. The tunnel is six feet wide and eight feet high. The earth is very easily removed, but some difficulty is experienced with the ground caving which delays the work more or less.

Only one of the three camps to be established is now in running order and but comparatively few men are employed; but their numbers will be materially increased as soon as the three shafts now being put down are finished.

When this work is a little farther along the other camps will be opened up.

The present camp is located not far from Inglewood, just north of the Siemens brick yard.

OFFICERS SUSPENDED.

BELLBOY PHOTOGRAPHS.

At the meeting of the Police Commission yesterday Chief of Police Hamel reported that he had suspended Officers W. E. Alexander and A. M. Wilson from duty because of violations of the regulations.

Alexander was given ten days for going off his beat while on duty and Wilson was given thirty days for changing his residence without notifying the department.

The Chief also reported that he had prepared 600 copies of the resolutions asking that all hotel and lodging-house keepers have pictures taken of the bellboys in their employ.

The Mayor explained in connection with this matter that the regulation is to have a picture of each bellboy taken and that the picture is to be placed in the hotel or lodging-house where he is employed.

is intended to apply only to boys who were not personally known. It is not the intention to place these pictures on file with the police, but for the protection of the public by the use of the pictures to identify the boys.

Two officers were suspended by the Police Commission.

The Board of Health instructed the Health Officer to inspect the Cudahy plant.

The Board of Supervisors has determined to furnish up the old cannon that has lain about the city for years and that have a romantic history that dates back to the old Spanish days.

An amusing suit came to trial yesterday wherein a single individual tried to sue a neighbor for keeping bees.

A. P. Rheinchild was arrested yesterday for resisting an officer and being cruel to a male.

H. T. Ortega was fined \$40 yesterday for stealing a watch.

AT THE CITY HALL.
**PAY OR NOT,
THE QUESTION.**

THE CIVIL SERVICE COMMISSION
HOLDS UP DEMAND.

Former Sanitary Inspector C. N. Wright Asks for Back Salary for Services He Claims He Rendered City—Wants Money for Time Between Discharge and Resignation.

The demand of C. N. Wright for back salary for services which he claims he rendered the city in the capacity of a sanitary inspector of the health department was not certified to by the Civil Service Commission at its meeting yesterday.

The case is a rather peculiar one and the commissioners were not willing to take action upon it until further investigation, and consequently held it up until the next meeting of the board.

It seems that on the 15th of last September on the statement of Health Officer Dr. Powers, that Wright was not attending to his duties, the Board of Health discharged him. Wright was a regular employee and was on the civil service list.

He, therefore, was not willing to give up his back salary without further investigation, and consequently held it up until the next meeting of the board.

It seems that on the 15th of last September on the statement of Health Officer Dr. Powers, that Wright was not attending to his duties, the Board of Health discharged him. Wright was a regular employee and was on the civil service list.

This he did and it was accepted with alacrity.

But "there's the rub."

Instead of dating his resignation September 15, the time of his dismissal, the resignation bore the date of its presentation, October 22.

Wright immediately set up a claim for "back pay" for the period between October 22 and the date of his resignation, which he maintains that he was never legally out of the employ of the city.

During all this intervening time he declares that, although he was ignored by Health Officer Dr. Powers, he continued to report regularly at the office and that he turned in reports every day from his district in which there was no other inspection.

At its meeting of August 2, the Board of Health agreed to recommend Wright be given back pay for this time, amounting to \$121.25.

Wright claims that he has also seen the Finance Committee of the Council and that it has agreed to approve the demand.

When Wright approached the Civil Service Commission yesterday afternoon he struck a snag.

At the time Wright was discharged by the Board of Health that fact was certified to by the board and the board of the commission do not show that he was ever employed thereafter.

The commission was asked to decline to do so unless the Board of Health will certify that Wright was in the employ of the city after he was discharged.

J. B. Lippincott, the recently appointed member of the commission with the commission for the first time.

Thomas was elected chairman and Dr. W. E. Edelman was chosen vice chairman.

The matter of fixing a maximum age limit for entry into the civil service was discussed, but no definite action was taken.

The protest of C. W. McManis against the appointment of Roy Farmer instead of himself as license clerk in the City Clerk's office was referred to a special committee consisting of Lippincott and McCutcheon.

was maintaining a public nuisance in keeping bees. Now, keeping bees is a money-making business, and a great many are kept in and about Fernando, hence the excitement to see just whether the community was about to be steered against some law or other that nobody knew anything about, making the effort to engage in the honey-making trade. A jury was impaneled in the Justice Court, and the witness for the defense came trooping into the witness stand to prove that within the territory over which bees were kept at Fernando there are about 700 colonies of bees.

Being at the opposite corner of the forty-acre tract was shown that the places of Roselle and Nickerson are eighty rods apart. So much settled, the witness for the defense came trooping into the witness stand to prove that within the territory over which bees were kept at Fernando there are about 700 colonies of bees.

THE JURY DIDN'T TAKE MORE THAN A FEW MOMENTS TO ARRIVE AT A VERDICT OF NOT GUILTY. They did this all the more readily because the defendant had a "public nuisance" must be an annoyance to a neighborhood or community, which the evidence showed it was not.

was paid. Then Lloyd Hughes, the youth out of the Whittier Reform School on parole, who was also arrested for making a rough house at the dance, was held for five days in jail. He chose the days.

THE INTERIOR COURT.

"BILL" FEELS LIKE AN ACTOR.

LOUD JAG IN GRAND OPERA-HOUSE GALLERY.

Gets up and Imitates Actors and is Fined Ten Dollars—Young Man Arrested for Cruelty to a Mule Resists the Humane Officers—Petty Larceny.

"Bill" Gough suddenly felt the call of destiny to quit drinking on a freight train and be an actor last Monday night.

Gough had more excuse than many who have heard the call. The fact is, Gough looked down from the Grand Opera house gallery and distinctly saw nineteen different sets of stages and a whole landscape decorated with stunging villains.

When the refined lady in white came down the aisle, Gough ordered a villain in the "Counterfeiters" to hit her, Gough got so excited that he hung over the gallery rail and yelled, "Let me pass, sir." He thought the girl with the pale complexion couldn't have heard what the lady said.

Then the bouncer sent a policeman settled down on Gough and gave him forty days in jail for disturbing the peace.

Yesterday Justice Austin fined him \$10.

Another Man's Watch.

H. T. Ortega, a Mexican who agreed to sell a mule to watch over him in a saloon and absent-mindedly forgot to return, was fined \$40 with the alternative of forty days in the chain gang, by Justice Austin yesterday.

His Humane Officer.

The humane officer objected to A. P. Rheinchild being cruel to a mule; so A. P. Rheinchild hit the humane officer on the eye. A patrolman was run this city were notified yesterday that a body of \$30 or averaging thirty feet in width had just been encountered.

IN NORTHWEST PLACER FIELD. Frank Ogilvie Wood, the mining expert of South Pasadena, has just returned from a two months' trip in the newly-discovered, and yet old, placer country contiguous to the Grande Ronde River in Oregon. The expert made an examination and report on several properties in this region for a Los Angeles syndicate and work is to be prosecuted on an extended scale.

The headwaters of the Grande Ronde River spring from an ancient river bed of the Pacific coast. Mr. Wood, "and this particular place is rich in mineral wealth. It is situated about fifty-five miles up the Blue Mountains near the town of La Grande. The Carson channel is about two thousand feet wide, and the bank of the river is composed of a soft, silty material. It is regarded as an ideal hydraulic proposition."

Mr. Wood visited Baker City and Sumner, but found the mining business stagnant in those places on account of the difficulty in concentrating the ore and the long haul to the market.

He was particularly impressed with southwestern Oregon as a mining country, however, and says that the sucker strike has not been overestimated.

"That is a coming mining country and I am glad to see Los Angeles people getting in there," continues Mr. Wood. "Rheinchild now owns a large interest in the famous Greenback mine, and this old property is being put in shape to produce handsomely again. In the early fifties, millions were washed out of the Rogue and Klamath rivers, and now with the herds of prospectors finding in and delving throughout that region, history will repeat itself. Chances of almost solid gold weighing about a pound a bushel are being discovered, and every day news of new discoveries is being brought into Grant's Pass."

C. L. Tait of the United States Geological and Mining Survey, who has been in the city and over the Carson river for a large smelter at Tallahassee, near Walden, Oregon, says that the Carson river is a great impetus to mining in that region.

BUT LARGE GROUP.

Gen. B. Bouten, W. L. Valentines and J. W. Watson, owners of the Eagle and Carnation groups of mines on the Colorado River below the Needles, are extending their holdings in this favored mining section.

Yesterday a deal was closed whereby the Los Angeles men secure title to the Belcher group of claims, lying south-west of the Carson river, in the Carson river. These properties also adjoin the famous Mock mine, which was recently sold to Benjamin Blanchard.

With the acquisition of the Belcher group of six claims, Gen. Bouten and associates now control 600 acres of the choicest mineral-bearing zone of this section.

TALKS WITH TRAVELERS.

Frederick Belasco, the San Francisco theatrical manager, after whom the new Belasco on Main street between Third and Fourth streets in this city is named, arrived in Los Angeles yesterday and will remain until after

ULTIMATUM TO HEBER.

Imperial Water Users Make Ten-day Proposition.

Decisive Counter Ultimatum at Once Delivered.

Development Company Will Negotiate No More.

(BY DIRECT WIRE TO THE TIMES.)

Imperial, Aug. 10.—(Exclusive Dispatch.) The Water Users' Association gives out the following result of the meeting here yesterday:

As the property to be valued belongs to the California Development Company, the drawing of the original draft of arbitration articles was left to its attorney, Mr. Meserve, and this was submitted the 11th inst. to Mr. Ward, attorney for the water users. He prepared his amendments by the 13th inst.

Minor differences being settled, three bigger ones were found remaining, namely:

First—Mr. Heber insists upon a partisan board of arbitration.

Second—That the property shall be valued and paid for before any question of damages is considered.

Third—He declines to agree that the present market value shall be the criterion of valuation.

Mr. Ward being unable to overcome these objections, he passed them up to the water users here, which body decides as follows on them:

First—It insists on a non-partisan board of arbitration.

Second—It insists that evidence both as to valuation and damages be heard before any decision is made, to the end that the arbitrators in fixing the value of the property may take into consideration its capacity or incapacity for the work allotted to it. The water users, however, suggest this option on the valuation, the water users shall have the option to receive \$250,000 in full settlement of damages, however, not to exceed one-sixth the entire valuation, or the question of damages to be submitted to new arbitration.

Third—The water users insist upon the present market value as a criterion of valuation, but with a fair chance to find a buyer. Considering all conditions, these propositions are accepted, and a repudiation of those who are harassing him, as he claims.

The keynote of Mr. Heber's reply to the Water Users' Association is the following sentence:

"Notice is hereby served that the California Development Company, the owner of the Imperial Canal, declines to further consider, negotiate with or to sell its property to said Water Users' Association."

In his document of repudiation, Mr. Heber reviews the acts of the mass meeting at Imperial July 25, when the proposition to arbitrate the question of the value of the property of the California Development Company was made by him in the following language, he claims:

"I propose that we submit the question of how much we shall receive for our property, and how much you will receive in damages by reason of alleged failure to deliver water, to a board of arbitration to be selected in the manner outlined, and carry out your share select a man, and that the two shall select a third, the decision of that board to bind both parties."

"The proposition was unanimously agreed to," says Mr. Heber, "by the people assembled, who instructed their representatives, the Water Users' Association, to enter into articles to carry out the agreement."

Then Mr. Heber goes on to declare that yesterday, to his utter astonishment, he received a written ultimatum from the Imperial Valley Water Users' Association, demanding that the company he represents "shall submit the arbitration of the price of its property to strangers, without the privilege of being represented on the board of arbitration; totally ignoring my official proposition and the people's acceptance, and foreign to the agreement passed upon at the meeting."

In the body of the ultimatum which he returns to the enemy, he takes his stand as follows:

First, that he can no longer waste his time in attempting to negotiate with men who "never disregard the elementary business principles, which are truth, honor and fairness."

Second, that there are "insoluble rights under the Constitution of the United States to acquire, own, possess and hold property unimpaired."

Third, that the Imperial Valley Water Users' Association is "an incongruous organization; a house divided against itself," and that its radical element is controlled by "an attorney of Los Angeles, Shirley C. Ward, with anarchistic tendencies."

Fourth, that it would be suicide for the people of the valley for the company to sell out and therefor to be managed by such people as above referred to.

Fifth, that the company is competent and able to continue "the good work of development, and that it will proceed to execute and carry out its 'well-laid plans,' and 'will look neither to the right nor to the left.'"

Sixth, that claims for alleged damages will be met with the law.

Seventh—addressing the settlers of the valley—that there will continue to be water enough, and to spare, and that the only expedient through which to secure such a supply is the company.

Eighth, that the only way for the United States Reclamation Service to secure a portion of the company's system is to purchase the company's "words to that effect."

Ninth—that funds taken from the company's treasury incident to the "vicious warfare" made upon the California Development Company "will be recovered by process of law."

And finally that Heber at the consideration of the ultimatum, he considers the "incident" closed.

ONLY A BLUFF.

There are persons in touch with the situation who have prophesied all along that the idea of arbitration never agreed with Heber, and that his arbitration proposal made at the mass meeting July 25 was simply a bluff to keep the people off from his neck—for there was mob spirit in the sultry air that day. These disbelievers in Heber

The Agitator: If that's the case, I'd better turn this picture to the wall.

have maintained that he would, at the first opportunity, "fly the coop," in which he had voluntarily but distastefully cooped himself for policy's sake; and the Heber reply ultimatum above reviewed certainly looks like the sign of the "double cross."

It has been openly claimed, as the belief of those well informed, that W. E. Smythe and the attorney for the Water Users' Association, as well as at least one member of the association, have been in collusion with Heber in the deal, and have played the stunt with him to please the galleries and feed the audience.

It is the sincere desire of the people really interested in the welfare of the Imperial Valley and its ranchers, and honest methods prevail here, and to see the company go ahead and prove its claims to its ability to carry out its contracts by delivering the water contracted for, which is all that is desired.

(ADVERTISEMENT.)

PRESIDENT HEBER'S PROPOSITION TO ARBITRATE RE-DETERMINED

By the Imperial Valley Water Users' Association.

To the Public Generally: Imperial Valley Water Users' Association.

On July 25, last, at a mass meeting assembled at Imperial, I made the following proposition to arbitrate the price of the property owned by the California Development Company, and sought to be acquired by the Imperial Valley Water Users' Association, in behalf of the settlers in the valley, to wit:

"I propose that we submit the question of how much we shall receive for our property, and how much you will receive in damages by reason of alleged failure to deliver water, to a board of arbitration, to be selected in the usual manner, which you all know is, you select a man, we select one, and the two shall select a third, the decision of that board to bind both parties."

The proposition was unanimously agreed to by the people assembled, who instructed their representatives, the Water Users' Association, to enter into articles to carry out the agreement.

Then Mr. Heber goes on to declare that yesterday, to his utter astonishment, he received a written ultimatum from the Imperial Valley Water Users' Association, demanding that the company he represents "shall submit the arbitration of the price of its property to strangers, without the privilege of being represented on the board of arbitration; totally ignoring my official proposition and the people's acceptance, and foreign to the agreement passed upon at the meeting."

In the body of the ultimatum which he returns to the enemy, he takes his stand as follows:

First, that he can no longer waste his time in attempting to negotiate with men who "never disregard the elementary business principles, which are truth, honor and fairness."

Second, that there are "insoluble rights under the Constitution of the United States to acquire, own, possess and hold property unimpaired."

Third, that the Imperial Valley Water Users' Association is "an incongruous organization; a house divided against itself," and that its radical element is controlled by "an attorney of Los Angeles, Shirley C. Ward, with anarchistic tendencies."

Fourth, that it would be suicide for the people of the valley for the company to sell out and therefor to be managed by such people as above referred to.

Fifth, that the company is competent and able to continue "the good work of development, and that it will proceed to execute and carry out its 'well-laid plans,' and 'will look neither to the right nor to the left.'"

Sixth, that claims for alleged damages will be met with the law.

Seventh—addressing the settlers of the valley—that there will continue to be water enough, and to spare, and that the only expedient through which to secure such a supply is the company.

Eighth, that the only way for the United States Reclamation Service to secure a portion of the company's system is to purchase the company's "words to that effect."

Ninth—that funds taken from the company's treasury incident to the "vicious warfare" made upon the California Development Company "will be recovered by process of law."

And finally that Heber at the consideration of the ultimatum, he considers the "incident" closed.

ONLY A BLUFF.

There are persons in touch with the situation who have prophesied all along that the idea of arbitration never agreed with Heber, and that his arbitration proposal made at the mass meeting July 25 was simply a bluff to keep the people off from his neck—for there was mob spirit in the sultry air that day. These disbelievers in Heber

time on behalf of the company is very valuable, and as a business man I cannot afford to waste it in attempting to negotiate with men who ever disregard the elementary business principles, which are truth, honor and fairness.

Second—There are certain inalienable rights vouchsafed in the Constitution to the citizens of the United States which consist in part of the right to acquire, own, possess and hold property unimpaired.

Third—The Imperial Valley Water Users' Association is an incongruous organization, without money or character. It is a house divided against itself. On the day of its organization, its board of directors organized themselves into factions. On one side the representative, conservative and on the other the radical element of the valley; the latter controlled by an attorney of the city of Los Angeles in the person of Shirley C. Ward, with anarchistic tendencies.

Fourth—It would be scarcely short of crime, certainly suicide, for the people of the Imperial Valley, the California Development Company to sell and turn over its vast properties to be managed by an association partly composed of the same men with anarchistic proclivities led by one more dangerous than they, which the better element in the valley certainly must know and deprecate. In consequence of such leadership scramble for place and graft, I fear, would obtain. Were the association to secure control of the Imperial Valley, it would retrograde into chaos, ruin and disaster to the settlers in the valley and to the association itself.

Fifth—The California Development Company is proud of the achievements it has attained, and speaking in behalf of its stockholders, I wish to voice my protest against its proposed development of the valley postponed. The company, which has up to date failed and manned the enterprise and weathered the storm, is competent, capable and able to continue the good work of development until such time as there will be an irrevocable acre of land left in the valley to improve. The company will proceed to execute and carry out its "well-laid plans," and "will look neither to the right nor to the left, but will follow its accustomed straight-forward course."

Sixth—To the claimant for alleged damages, let me say, each case will be carefully investigated and where it is found that under the law the company is liable, due allowance, reparation and settlement will be made, but where no liability exists the case will be energetically contested to the end.

Seventh—To the ranchmen and business men of the valley, I wish to voice my protest against their proposed development of the valley postponed. The company, which has up to date failed and manned the enterprise and weathered the storm, is competent, capable and able to continue the good work of development until such time as there will be an irrevocable acre of land left in the valley to improve. The company will proceed to execute and carry out its "well-laid plans," and "will look neither to the right nor to the left, but will follow its accustomed straight-forward course."

Eighth—To the reclamation service a word of admonition. The only feasible and logical method of securing municipal ownership of the irrigation system for the settlers of the Imperial Valley, through the medium of the national government, is for it to open up direct negotiations with the company for the purchase of its plant-for use of the settlers if desired, which, in my judgment, is the proper way to have proceeded.

Ninth—To the officers and directors of the various mutual water companies operating in the valley, I wish to announce that I shall insist upon the return of funds unlawfully diverted from the treasuries of said companies and misappropriated and applied toward the payment of fees and expenses incident to the vicious warfare made upon the California Development Company. Upon the failure of the return of said funds, I shall, along with giving lessons at \$1.50 a month, or reading papers in printing offices, or serving as choristers in the theaters.

The French psychologist Fere has made experiments which show that the process of digestion diminished the capacity for muscular work fully one-half. As regards the effects of stimulants like tobacco and alcohol, he has found that while they diminish fatigue, the effect never lasts more than ten minutes, and is followed by a greater degree of fatigue than would have existed if they had not been indulged in.

THE BEAUTY QUEST.

Elizabeth has given up her music and her club.

She spends her time between two things—her mirror and her "tub."

The cook book and her new whisk rules are covered thick with dust—Liz has a brand new pad, and practices it as much.

She's going to be the loveliest thing alive—if she just lives till spring!

She gets up in the morning, brings out the diagram.

Which tells her how to breathe and how to hold her head.

And then she grabs a dumb-bell that weighs an ounce or two—

And "puts it up" just eighteen times, as she has learned to do.

(While mother hustles down and makes the coffee and the batter cakes.)

From breakfast time till lunch is served, Elizabeth is found

Before her dressing table, with strange instruments around her.

With which she works her cheeks and lips, massages throat and chin,

And "rubs the wrinkles out again," in case some have crept in.

(But mother, with her dust rag, goes about with smudges on her nose!)

The afternoon Elizabeth divides with jealous care

Between a walk of counted steps, putting up her hair;

She reads each day an article about the beauty quest,

And when she yawns lies down to seek a little well-earned rest.

While mother stands on guard to keep

Folks from disturbing Liz's sleep.

Most of us think that Liz's always been a pretty girl

(Although she had a freckle once, and her hair won't curl.)

But Liz's found her mission, and when spring gets here again

She'll be a howling beauty, who will turn the heads of men.

And mother? She'll be pleased to death

To just admire Elizabeth!

(Cln-Innuit Times-Star.)

FOREIGN FACTS.

Compiled by Henry T. Finch.

The editor of an anti-vaccination periodical, Der Impfgegner, published in Dresden, some time ago sent copies of it to various German and Austrian physicians. One of these, who lives at Graz, returned his copies after writing on one, "I beg you not to inflict upon me the honor of publishing the thesaurus brought out for me."

The case was tried at Graz; experts of the medical profession and the local university were called upon for testimony, and the verdict was that the contents of the Impfgegner deserved to be called rubbish. The doctor was acquitted, and the editor had to pay the costs.

A Russian named Ivanoff has written a book on the students of the university of Moscow. He asserts that most of them are dolts and good-for-nothings. The average amount each one has to spend is \$13 a month; 11 per cent. have no income at all, and depend on charity or help themselves along by giving lessons at \$1.50 a month, or reading papers in printing offices, or serving as choristers in the theaters.

The French psychologist Fere has made experiments which show that the process of digestion diminished the capacity for muscular work fully one-half. of Modern Workmen. Dr. James P. Booth will be the orator of the evening. News has been received by C. A. Menning of the death of his father, C. A. Menning, at Des Moines, Iowa, Monday morning. Mr. Menning was 84 years old and formerly lived at No. 9 North 21st street, Los Angeles.

Rev. W. W. Cookman, pastor of the Lincoln Avenue Methodist Church, has been invited to preach another sermon. Mr. and Mrs. Paul Hutchinson of Pasadena have gone to Catalina for two or three weeks.

The date of the wedding of Miss Vance Rythorford of Altadena and William F. Rythorford of Chicago has been changed from the 26th to the 19th inst.

Wedding invitations at Leonard's. Wigwam has moved to 61 N. Euclid. Artists' materials at Wadsworth's.

WIRELESS EXPERIMENTS. AVAILON, Aug. 16.—Gen. A. L. New, since his return from the East several weeks since, has been busy much of the time conducting experiments here, some of which have been successful. Since the science of wireless telegraphy as applied to the commercial business is an unexploited and trackless forest, and the Pacific the only company making progress in blaring a way through it, each experiment is fraught with great interest. A long step was made in the direction of progress Saturday night when the employees here having connected the downtown office with the high mast on the hill by a single wire and temporarily brought down their instruments, succeeded in sending messages to the San Pedro station. The wire used was from, which has about 20 per cent. less conductivity than copper, and the arrangements were in other respects crude, but the experiment was considered quite satisfactory, and will obviate the necessity of erecting high masts in the immediate vicinity of a wireless office or station. In cities of dense population it would be quite impossible to erect and maintain a high mast because of the impossibility of properly guying it among buildings and public streets. It is thus that progress is being made, and a step is taken in the advance of knowledge of the use of currents or machinery.

One of the most interesting entertainments of the summer at Carillo was the vaudeville show Saturday evening. Many strangers and visitors went from Avalon to see the performance.

The building of the bowling alley is rapidly progressing, and on the whole the residents are missing none of the conveniences and comforts that usually accompany a summer at the less recently established resorts, but missing their time in the past, they are now enjoying the benefits of the new and improved facilities.

Mr. and Mrs. Mills will lecture daily on the subject of "Spiritual Healing" on Friday this week, and Rev. N. Brooks of Denver will continue her course on "Spiritual Healing."

ISLAND NEWS. Mr. and Mrs. Otto Johnson and Mrs. John Lindell and Charles Bradbury, a Prescott, Ariz., party, chartered the launch Catalina, John Roberts, skipper, and spent the night at the lighthouse, a portion of the party incidentally indulging in some fishing, taking twelve yellowtail and six rock bass.

The Whittier School camp was broken yesterday and the girls returned to the state institution at Whittier. They had a very successful outing for both boys and girls, the conduct being in marked contrast with that of their last visit here, when the camp was in a state of continual unrest through the boys' running away. No trouble was caused by any of them this season.

Miss Mildred Baxter and Miss Bertha Sanborn of Tustin, chartered by Mr. Charles Sanborn, are occupying the Sanborn cottage home for a month. D. K. Edwards, a Los Angeles commission merchant, with his wife spent Sunday on the island, returning today. P. A. Zilling and Dr. Fritz Keatner, German commercial attaches at the St. Louis Fair, are at Hotel Metropole.

"The Avalon Wireless," published under the auspices of The Wireless, is now issued daily, being sold on the streets between 7 and 9 a.m. The feature of the sheet is that it contains a full summary of the world's news, including foreign dispatches, taken from The Times each morning and transmitted by the wireless service of the Pacific Wireless Telegraph Company, reaching the island each morning between 4:30 and 5 a.m. complete. Newspapers from the mainland do not arrive at Avalon before noon; thus "The Wireless" gives to persons on the island a wireless bulletin concerning what has transpired throughout the world during the preceding day five hours before they can get the full details from The Times which arrives on the noon boat.

Subscriptions for The Times or "The Wireless" can be left at the Catalina Novelty Company.

CLAREMONT. SUMMER-DAY NOTES. CLAREMONT, Aug. 16.—A party, consisting of the Messrs. Grace Schuchman, Bertha Eldredge and Messrs. Jones, Ralph Schuchman and Bradford Jones, started this morning for a week's camping in Icehouse Canyon. Mr. Jones accompanies them. Mr. and Mrs. William W. Beach, whose marriage was celebrated here last week, are spending their honeymoon at Santa Barbara.

Frank Reid, Pomona College, '04, has left for Berkeley, where he will take a year of post-graduate work.

POMONA. WATER IN SIGHT. POMONA, Aug. 16.—The third attempt at boring a well for the city at Gaillard Park today failed to be successful. Boring has been stopped at 75 feet, and the soil gives every indication of water, so a testing apparatus will now be installed.

The two new mail-route cars commenced work yesterday. Lewis R. Andrews covers the district north of the railroad tracks over twenty-three miles, and W. H. Markham covers the district south of the tracks, the distance allotted being over twenty miles.

P. B. Olsberg, city editor of the Tribune, is visiting relatives here. Misses Sanborn, Lawrence and Sawyer left for Catalina today for a two weeks' sojourn.

Mr. and Mrs. P. J. Dreher are home from Ocean Park.

Mrs. Fred Roberts and daughter E. Los Angeles are visiting the former's parents, Mr. and Mrs. F. W. Adams.

NEWLETS. The members of the Speakers' Bureau, including the speakers, came over from Los Angeles yesterday and dined at the hotel. They enjoyed a ride in the motor cars, and will leave in the afternoon for their homes.

The post Congress at the Los Angeles Convention is expected to be a very successful one. The only thing that is so common as to hear of a man who has been elected to Congress, is that he has been elected to Congress.

HURLS WOMAN OVER FENCE.

STRANGE RUNAWAY ACCIDENT AT LONG BEACH.

Running to Escape, Mrs. Hammond Struck and Thrown High in the Air, and Falls to be Left Hanging by Foot Caught in Picket Fence—Old Pier's End.

LONG BEACH, Aug. 16.—Mrs. Charles Hammond was seriously injured this afternoon. While out on her husband's transfer wagon the team plunged forward and frightened Mrs. Hammond, who leaped from the vehicle. The horses had made a half circle and were backing up. She ran for the sidewalk, but the team overtook her and the horse struck her in the back, hurling her over a picket fence, where she hung, with her heels caught in the pickets.

CLEAN SWEEP AGAINST BONDS.

DEBT ISSUES ALL DEFEATED IN SANTA MONICA.

Majority Vote in Favor of All But One Proposition, but Not the Two-thirds Required—Result Immediately Followed by Talk of Woman Act Proceedings.

BUSTY CHRISTIANS.

Today's session of the Christian Assembly was devoted to the business of the Christian Missionary Society of Southern California and Arizona. Secretary Ralston's report shows a gain of 1201. The entire membership is 6720, of which 4445 are in California. Last year there were thirty-six active churches, but this year there are forty-eight churches and five missions. The treasurer reported \$2304.50 raised for evangelistic work.

SANTA MONICA, Aug. 16.—The die is cast, and Santa Monica will not have municipal ownership of a water system—not for the present, at least. Neither will she have new bridges, freeways, houses, parks, improvements or sewerage.

LAST OF OLD PIER.

All that remains of the old wharf is a small section of the outer end, which will also be gone within the next forty-eight hours. Nine bents are in on the pier, and the machine was taken to the lower deck. Work on the new and enlarged part of the wharf will now proceed. On the shore and south of the pavilion about 60 feet of the superstructure is in place, and is being floored today. It is probable that the Board of Trade, aided by the railroad, will make the opening of the new pier the occasion of a grand celebration with fireworks, music and all other accessories of a big holiday.

WHITTIER.

NEW MAIL ROUTE.

WHITTIER, Aug. 16.—Whether rural mail route has been established here, service having begun yesterday morning. The route starts at the girls' department of the Whittier State School, goes to the boys' school, takes the King's drive, the main road to Los Nietos and Santa Fe Springs, and on the Puente route to Puente Creek. The carrier is C. C. Smith.

DOWNY.

HIGH-SCHOOL BONDS DEFEATED.

DOWNY, Aug. 16.—The proposed issue of \$20,000 worth of bonds of the Los Nietos Valley Union High School district was defeated at a special election held here today. The vote stood 245 in favor and 123 against. The required two-thirds majority was lacking. The common-school districts in the High-school district are Downey, New River, Galathea, Alameda and Old River.

REDONDO.

SMITH-URRY NUPTIALS.

REDONDO, Aug. 16.—One of the most brilliant social events of the season was the wedding today of Miss Isabelle L. Smith, daughter of Mrs. H. Smith, and the late Justice Welcome Smith of Redondo, and James Henry Urry, son of J. K. Urry. The ceremony was performed at the residence of the bride's mother on Beryl street. The parlors and dining-room were beautifully decorated, and the couple were united under a canopy of fish net, interwoven with white carnations, from the center of which depended a beautiful horseshoe of white carnations and maidenhead fern. Rev. Harold K. Van Hook, of Redondo, officiated.

SAWTELLE.

BAPTISTS AT PICNIC.

SAWTELLE, Aug. 16.—The Baptist Sunday-school held its annual picnic today at Laurel Canyon. A special car was provided by the Los Angeles Pacific, which was appropriately decorated with flags and bunting. About 100 were in attendance, and the day was enjoyed with the usual games and amusements.

Low Rates to Sacramento.

Twenty dollars round trip Los Angeles to Sacramento, Aug. 17 to September 1, inclusive, inclusive. The rate is for the round trip, and the fare is for the round trip.

REDONDO NEWS BRIEFS.

While working on what No. 3 this morning, Bert Miller, an employee, was caught between the cars which were switching lumber and had his leg badly mangled. Surgical aid was summoned and his wounds were dressed, but it is feared that the injuries will cripple him for life.

Majority Vote in Favor of All But One Proposition, but Not the Two-thirds Required—Result Immediately Followed by Talk of Woman Act Proceedings.

SANTA MONICA, Aug. 16.—The die is cast, and Santa Monica will not have municipal ownership of a water system—not for the present, at least. Neither will she have new bridges, freeways, houses, parks, improvements or sewerage.

LOS ANGELES, CALIFORNIA.

OCEAN PARK.

SAND-TOWN JOTTINGS.

OCEAN PARK, Aug. 16.—Mrs. Belle Chandler, Mrs. Minnie Worth and Mrs. Otto Brandt of Los Angeles are spending a few weeks on the beach.

Forester Howe is a seaside visitor from the Needles.

Miss Florence Clark is here from Long Beach spending the week.

Mrs. John Wadsworth is on her way to St. Louis to attend the exposition.

Mr. and Mrs. C. J. Gibbs, after an outing of a few weeks, have returned to their home in Pasadena.

Mrs. E. H. Sotherlin is here from Los Angeles for a few weeks.

F. J. Bowes is here from Portland, Or.

Mr. and Mrs. C. E. Kelly of Ocean Front will start Wednesday for the World's Fair.

Albert Lewis, late of Kansas City, is to build a six-room cottage in the King tract.

Mrs. Nettie Uyer of Redlands is a beach guest.

Mrs. F. W. Raymond is here from the Needles for a few weeks.

Evelyn Luzzier is down from San Jose on a brief visit.

Mrs. Hervey Duffin of San Francisco is a Rose-avenue summer cottager.

Miss Rex Norton is a season's visitor from Los Angeles.

GLENDALE.

NOTES OF THE SLOPE.

GLENDALE, Aug. 16.—The members of the Episcopal Sunday-school enjoyed a picnic at Echo Park Saturday. A number of friends celebrated the second wedding anniversary of Mr. and Mrs. C. O. Mason Friday evening at their new home.

Mrs. Alexander Mitchell entertained Saturday evening at progressive hearts.

Miss Florence White and F. W. McIntyre received first prize, while Miss Anna Valentine and Mr. Wood were awarded the consolation.

The Rebekahs and Odd Fellows gave a surprise party for Mr. and Mrs. E. J. Vawter at their home Saturday evening. Music and games were enjoyed by all. Mr. and Mrs. Vawter, with their children, Arthur and Ada Vawter, sail for Seattle this evening.

SAWTELLE.

BAPTISTS AT PICNIC.

SAWTELLE, Aug. 16.—The Baptist Sunday-school held its annual picnic today at Laurel Canyon. A special car was provided by the Los Angeles Pacific, which was appropriately decorated with flags and bunting. About 100 were in attendance, and the day was enjoyed with the usual games and amusements.

Low Rates to Sacramento.

Twenty dollars round trip Los Angeles to Sacramento, Aug. 17 to September 1, inclusive, inclusive. The rate is for the round trip, and the fare is for the round trip.

Fear the Coming Beard.

Barbers are seriously considering the question whether the present custom of men being clean shaven has not almost to be dropped in the trade. Of course there must be trimmings, but that is not like the old-fashioned safety razor, which is a little fooling in the place after the operation, and then went about his business, sometimes having to introduce himself to old friends.

The result has been that the shaving area of humanity has largely increased. Naturally cutting into the profligacy, as it were, in attendance, and the day after tomorrow the shaving area will be enlarged by a considerable amount. But a thing that is causing real alarm among the barbering artists is the evidence that not a few of their customers have recently raised beards.

It would be well if they simply let their mustaches grow again, but the real thing in the way of hairy faces is to be dreaded in the trade. Of course there must be trimmings, but that is not like the old-fashioned safety razor, which is a little fooling in the place after the operation, and then went about his business, sometimes having to introduce himself to old friends.

ANOTHER HAS VANISHED.

PACIFIC ELECTRIC EMPLOYEE IS NOW ADDED TO LIST.

Young Man Named Smith Started to Go to the Office of the Company and Has Not Been Seen Since. His Mother Appeals to the Police for Aid in Finding Him.

Robert Smith, a young man employed by the Pacific Electric Company, has gone to join the Los Angeles regiment of mysterious disappearances. His mother, Mrs. M. G. Turner, reported the case to the police yesterday.

She told the detectives that her son left his home at No. 1238 South Los Angeles street three weeks ago. He told her that he intended going to the main office in Los Angeles and trying to secure a transfer from the Pasadena branch to Los Angeles. She has not seen him since. It appears that he did not go to the office of the company. Mrs. Turner knows of no reason why her son should wish to leave home.

WILL STORE OIL.

Kern River Man Says Operators are Not Compelled to Submit to Standard's Terms.

T. Early, president of the Revenue Oil Company, of Bakersfield, was in the city yesterday. He is one Kern River operator who does not look upon the blue side of the oil situation. He is optimistic and says that the oil men are not forced to sell their product at the low prices offered by the Standard. Mr. Early says that his company has 100,000 barrels of oil in storage, but they will not sell a barrel below 21 cents, f.o.b., which means an additional tax of \$4.50 per barrel to Kern Junction. "We do not need to sell oil to the Standard, or to anyone else at the low prices," he said. "There are ample facilities for storing the Kern River oil in the field, and we propose to store it indefinitely unless our price is paid. If the Standard does not need oil at these prices it certainly has the privilege of refusing to buy, and on the other hand we exercise the privilege of refusing to sell at the prices. The trouble up there now is the shortage of tank cars. We could sell all of our oil in storage at our price if we could only secure the cars."

EVERYDAY HEROES.

Some Notable Examples of Straightforward Courage and Self-sacrifice.

[Chicago Inter-Occ.] James Jensen, a farmer-boy of 18, was taken a day before to his father's farm. The machine stalled on a railroad crossing and he was unable to move it. Knowing a passenger train was due, the boy ran down the track to give warning of danger.

Within 100 yards he met the train coming around a curve. He stood on the track in the glare of the headlights, bravely waving his hat. The engineer was able to stop the train just in time to prevent a collision.

Three workmen, digging a sewer trench, broke a gas main and the pit filled with deadly fumes. Two scrambled out, but the third lay at the bottom unconscious. Policeman Daniel O'Brien volunteered to descend. He put the unconscious workman out, but was himself overcome. Henry Koch, passing by on his way home from work, volunteered to go after O'Brien. He succeeded in getting O'Brien out, but was overcome himself in turn. Then the members of the nearest fire engine company came to the rescue of Koch, Patrick Quinn and Thomas Burke tried, but were overcome by the fumes and failed. George Thompson succeeded, but too late to save the man who had freely ventured his life to save another's. Within a few minutes after he was drawn from the fatal trench, Henry Koch was dead, his wife a widow, and his two little girls were orphans.

Here were six men, one of them only a boy in years, risking their lives in one day in and about Chicago, and two of them dying in the effort to save others who had no claim upon them except that of a common humanity. The simple facts should put to shame and silence forever those who everlastingly prate about the selfishness of human nature and judging the strength of others by their own weakness, contend that men will not do heroic deeds unless there is a special claim upon them be presented or a special reward offered.

A time and a people that can produce in one day from one community such examples of straightforward courage and self-sacrifice as the six men named above has no need to fear the past or abroad for heroic examples. It finds them in its own ranks every day.

Loan Saved Rockefeller. In all this talk about Bishop Potter and the Subway Tavern that he is credited with inducing as a temperance movement, his expression of disapproval has not been heard from any of the Standard Oil group of philanthropists or from the pastor of the Rockefeller church on Forty-sixth

Hamburger's

We sell more goods for cash than any Department Store on the Pacific Coast.

We have now displayed in our show window an assortment of patterns of 500 fine crystal flower vases, all in new shapes, with large openings; flat bottom; some are footed; heights range from 12 to 16 inches, and there are six styles to select from. On sale Wednesday, no mail or phone orders, at choice.

August Trade Sale of Lace Curtains

The really good values offered at this sale have been thoroughly appreciated by the housewives of Los Angeles. Not alone is this an opportunity to recurtain your home but it is certainly an advantageous time for proprietors of hotels and rooming houses to make selections, for the prices quoted are but little more than the present prices at wholesale. We offer hundreds of patterns in the combined assortments and you can match up almost any number of windows from the same pattern.

\$2.00 Nottingham Lace Curtains per pair \$1.25

These are in 3 1/2 and 4 yard lengths and up from 54 to 80 inches wide; twenty five different patterns from which to make selections; all of them are double woven and are in shaded patterns. \$2.00 values. Sale price per pair. **\$1.25**

Ruffled Swiss Curtains—plain Swiss with hemstitched ruffles and five rows of tucks inside; some of them in new lace striped effect; all of them 3 yards long; regularly worth \$3.00. Sale price per pair. **95c**

Irish Point Lace Curtains—3 1/2 yards long, have extra heavy worked borders and have fine imported net backs. They usually sell at \$3.50. Priced for this sale per pair. **\$3.95**

Novelty Lace Curtains—made on best French Bobbinet; have Battenburg edge; fancy designs on border with real motifs on corner. Regular value \$5.00. Sale price per pair. **\$3.75**

Grand Dame Battenburg Lace Curtains—made like the "Bonne Femme," only the opening is in center; have deep flounce and border; are worth \$7.50. Sale price, per pair. **\$5.95**

Warm Weather Bargains At Cool, Comfortable Prices

These warm days call for certain articles of wearing apparel both in yardage goods, textiles to be made up and articles for home comfort. As economical shoppers you will appreciate the following lines at their very low-selling prices at the great Hamburger store.

25c and 35c Fine Wash Goods Per Yd 15c
Beginning at 8:30 Wednesday morning, for an all day's selling, while they last, we offer an assortment of wash goods consisting of French organdies in white or cream grounds with floral patterns and fil de sole, soft satin-like wash goods in dark or light grounds with small patterns; both of which have sold during the season at 25c and 35c. All of them will go on sale as an exceptional trade winner for Wednesday's selling at per yd. **15c**
